

March 14, 2006

To whom it may concern:

Hasit Ruparel and his company Internet Services have been of great value to our company.

Hasit designed our website as well as assisted us with key word optimization for our site. The response and feedback from our website has been outstanding. I am amazed at the volume and quality of sales leads generated by our site.

I strongly recommend Internet Services for your next web development project.

Sincerely,

Gregory Berry
