Dear Sir,

Re: Marketing of our website

We are pleased to inform you that you have really successfully promoted and marketed our website www.italias.com into all search engines & web directories all over Internet.

We have got quite fruitful clicks on the trade responses after opting for particularly your "Platinum Package". In fact first positive enquiry came on very third day!

We must mention that our website is not only listed in leading position of all search engines but when a client search for our products keywords, our website appears on first position over other international manufacturers and that's what matters more.

We are fully convinced about the concept of aggressive marketing over Internet by keywords through "Promotion Professionals" like you. It can really be help to any export oriented business and business looking for global presence for their products or unique quality services.

We wish you all the success in your promotional fundas!

Regards,

RAVI GUPTA
Managing Director
ITALIA GLASS PVT. LTD.
