Intranet Services:

We have worked with the Intranet Services team for about five years. They have done a superior job helping us with various aspects of web development and site optimization for a number of our portfolio companies. They consistently keep our sites in the **top ten** on key search engines, such as Google and Yahoo!. We consider Intranet Services an important marketing partner and will continue to highly recommend their services.

Best Regards,

Brandon W. Freeman
President & CEO
