

WHOLE SALE MALL.NET

TO WHOM SO EVER IT MAY CONCERN

Wholesalemall.net has been in Business for 10 years and we are a very dynamic, growing company within the Wholesale/ Wholesale Handbags Market. One day by coincidence I found Intranet-Services Website and trust me we give thanks we did. Having my website on the first pages of google brought a 30% increase in sales. We were very excited to actually start getting many emails from customers that we were able to convert into new sales/customers. We have now an International customer base, Intranet-Services has now proved to be one of the leaders in Search Engine Optimization/Promotion, because we have several #1 positions with Google and have increased our sales again. I had been very skeptical with the Internet Marketing/Optimization, but now understand this will be our #1 stream of income in the future.

Good Luck and see you at the TOP.
