

DIE-CUT PAPER PRODUCTS
"SERVING THE QUICK PRINTER WORLDWIDE"

August 30, 2005

To Whom It May Concern:

I would like to take this opportunity to commend Hasit Ruparel for the great job he did on Zapco's templates. This project required extensive custom work and thanks to Hasit's dedication and hard work the end result was fabulous.

Shortly after getting the templates online we received the following email from one of our customers. I think it sums things up perfectly.

"I just wanted to say thank you for the templates online. I work in a preschool and I purchased some of your door hangers to use for carpool pickup. I actually traced and cut out 104 door hangers last year. It was a snap with your product and the templates. They look so professional! My school and my aching fingers thank you for supplying the template just in time."

Thanks again for a job well done and we are pleased to recommend your services.

Sincerely,

Steve Zapalac
President
